Forecast for Tuesday 13 Jul 2021

Weather: A bright day with some good spells of warm sunshine with just a small chance of the odd light afternoon shower.

Chance of cloud free mountain/hill tops above 800m: Around 75% rising to around 90%.

Visibility: Occasional cloud above about 600m at first, otherwise just small amounts below summit level. Away from cloud, visibility very good in the west with some decent panoramic views of surrounding hills and mountains, perhaps falling briefly in any showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Risk of sunburn and dehydration in the strong sunlight.

Forecast for Wednesday 14 Jul 2021
Weather: Some cloud across western hills overnight, otherwise dry with long clear spells. Cloud in west clearing soon after dawn with sunny spells developing. Sunshine turning increasingly hazy through the afternoon as cloud above the summits increases, bringing some patchy rain, especially to western hills through the evening.

Maximum wind: Variable less than 10mph becoming westerly 10mph by midday and increasing 15mph through afternoon.

Chance of cloud free mountain/hill tops above 800m: Little chance at first and again later in west, otherwise around 90%.

Visibility: Periods or persistent cloud above 300-450m at first and later in west, otherwise just small amounts below summit level. Away from cloud visibility very good falling to several kilometres in rain later.

Temperature: **Glens:** Around plus 10 or 11 Celsius rising to plus 21 Celsius by day
At 800m: Around plus 10 Celsius
Freezing level: Well above the summits
